

# MN Type Scullery Sinks Double Compartment

# ELKAY®

## SPECIFICATIONS IN INCHES

### GENERAL

Model No. MN \_\_\_\_\_ #14 gauge, type 304 stainless steel double compartment sink. All welded construction with 1-1/4" diameter rolled rims. Full length 15" high backsplash, 2" thick. Ends, partitions, and integral drainboards welded. Square corner welded construction. Drainboards rigidly supported by angle brace welded to sink body. Exposed surfaces polished to a satin finish. Sink supported on #14 gauge stainless steel formed detachable angle frame and legs with adjusting bolt for anchoring and leveling. These sinks do NOT meet NSF standards. Includes (1) LK80 soap dish.

● Last item in each group is custom. Fill in dimensions. Standard faucet location unless otherwise specified.
